

I listen to XM radio, and enjoy the right to choose what to listen to. I have become aware the the NAB has been trying to stop me from having some of these choices. I find that in very poor taste on what this country is for. FREEDOM. People have fought and died to protect some of these freedoms and the ffact that some group stomps on this just to avoid some compettion, is just disgusting and disgraceful. I'm asking you whole-heartly REJECT "NAB's petition 04-160" in the name of what freedom of choice means.
